

Dream of a Green Christmas This Year

Make Your WHITE Christmas GREEN:

Put your outdoor lights on a timer
to save energy.

Buy LED holiday lights.

Avoid excessive packaging and choose
recyclable wrapping paper and cards

Plan and combine your holiday
shopping trips to save gas

Compost your tree or plant a potted
tree after the holidays

The U. S. Capitol Christmas Tree
is decorated with
LED holiday string lights
that use 90 percent
less energy.

The AOC appreciates the support of the Office of Chief Administrative Officer
in communicating this energy awareness program.

WE HAVE THE
POWER TO **SAVE**
ENERGY
